

### **Brand Essence**

A brand essence is the 'heart and soul' of the brand, its timeless quality.

### **Brand Values**

### Mission

In collaboration with our partners, we strive to be at the leading edge of developing and deploying critical communication solutions. Services that connect people with information, vital assets and each other in rural, remote and maritime locations.

### **Purpose**

Our communication solutions enhance the lives of people and communities in rural, remote and maritime environments. We allow them to stay in touch, & be confident that they can safely live, work & play.

We also enable a transformative change in business operations and productivity for industries and governments operating in rural and remote regions. This includes the maritime, mining, energy, resources and agriculture sectors. In addition to all this, we are a catalyst for improved environmental outcomes.

### Vision

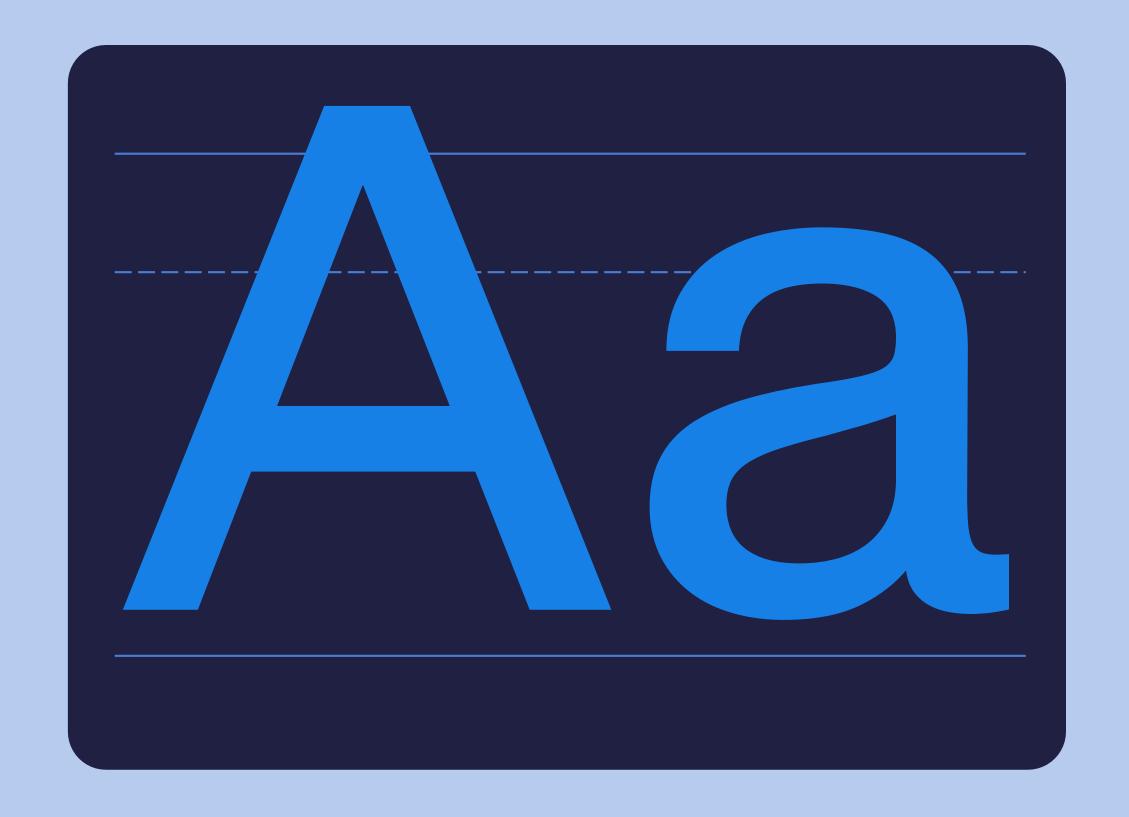

We aspire to give the world accessible communication solutions that connect people with vital assets, information and each other.

### Grid

Use grids to brand pulsar applications that may be missing strong branding elements or as a supporting element to another larger image or collage.

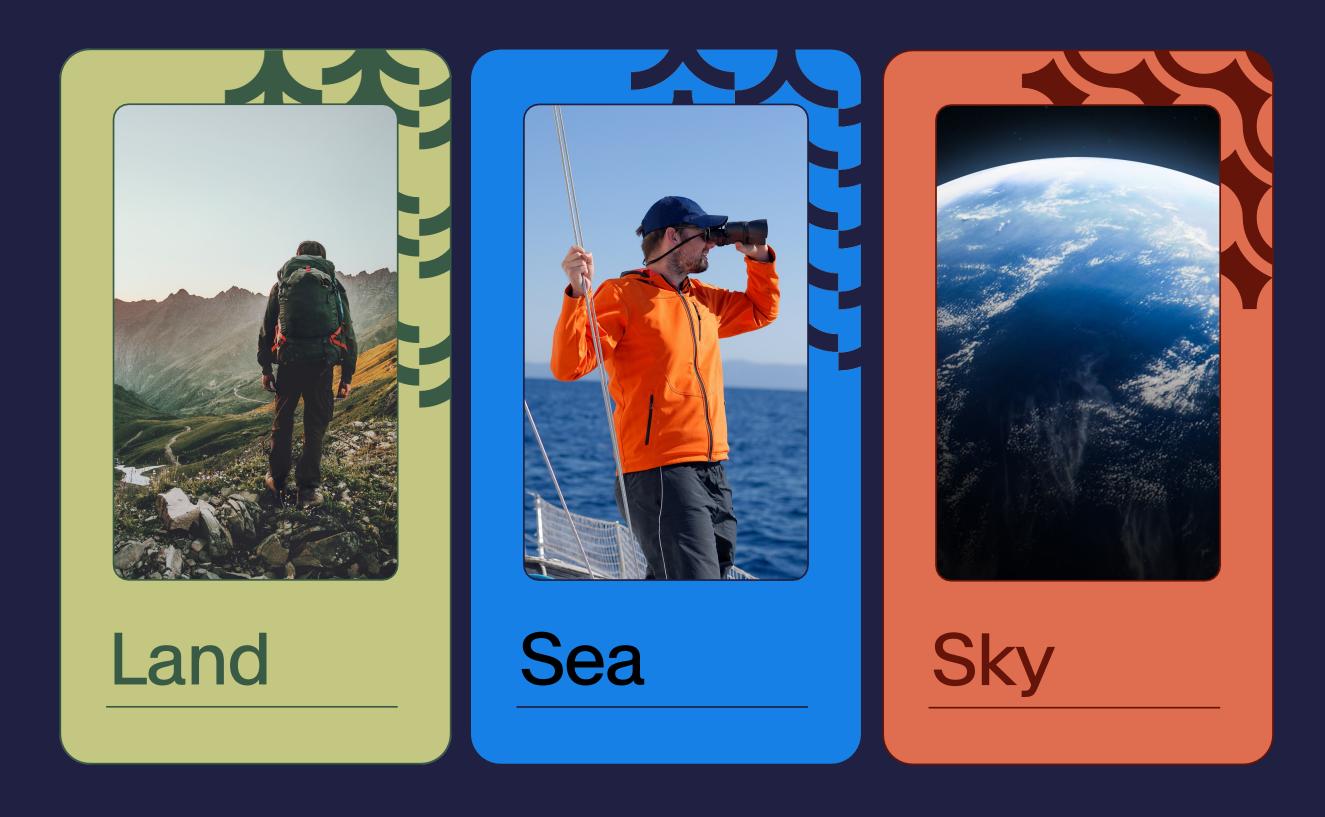

Avoid overuse or sprinkling this in whitespace.

### Pattern

These should reflect an application or reference a main image. Use this as a background to create visual interest. Make sure brand photography is the main subject. Is likely unnecessary for print media.

### Star

The Pulsar star can be used alone or interlocking. Let the star be a main image or centered to ensure that it can shine. Great for title slides or displays.

### Brand Photography + Elements

A brand's positioning is the conceptual place you want to own in your target audience's mind—the benefits you want them to think of when they think of your brand.

The line segment ties the main logo to the star together while indicating motion and connection. The star shape is taken from the abstraction of the rotational axis and radiation axis of a Pulsar.

The Pulsar star is meant to represent the stability, connectivity, & global versatility that our organization offers.

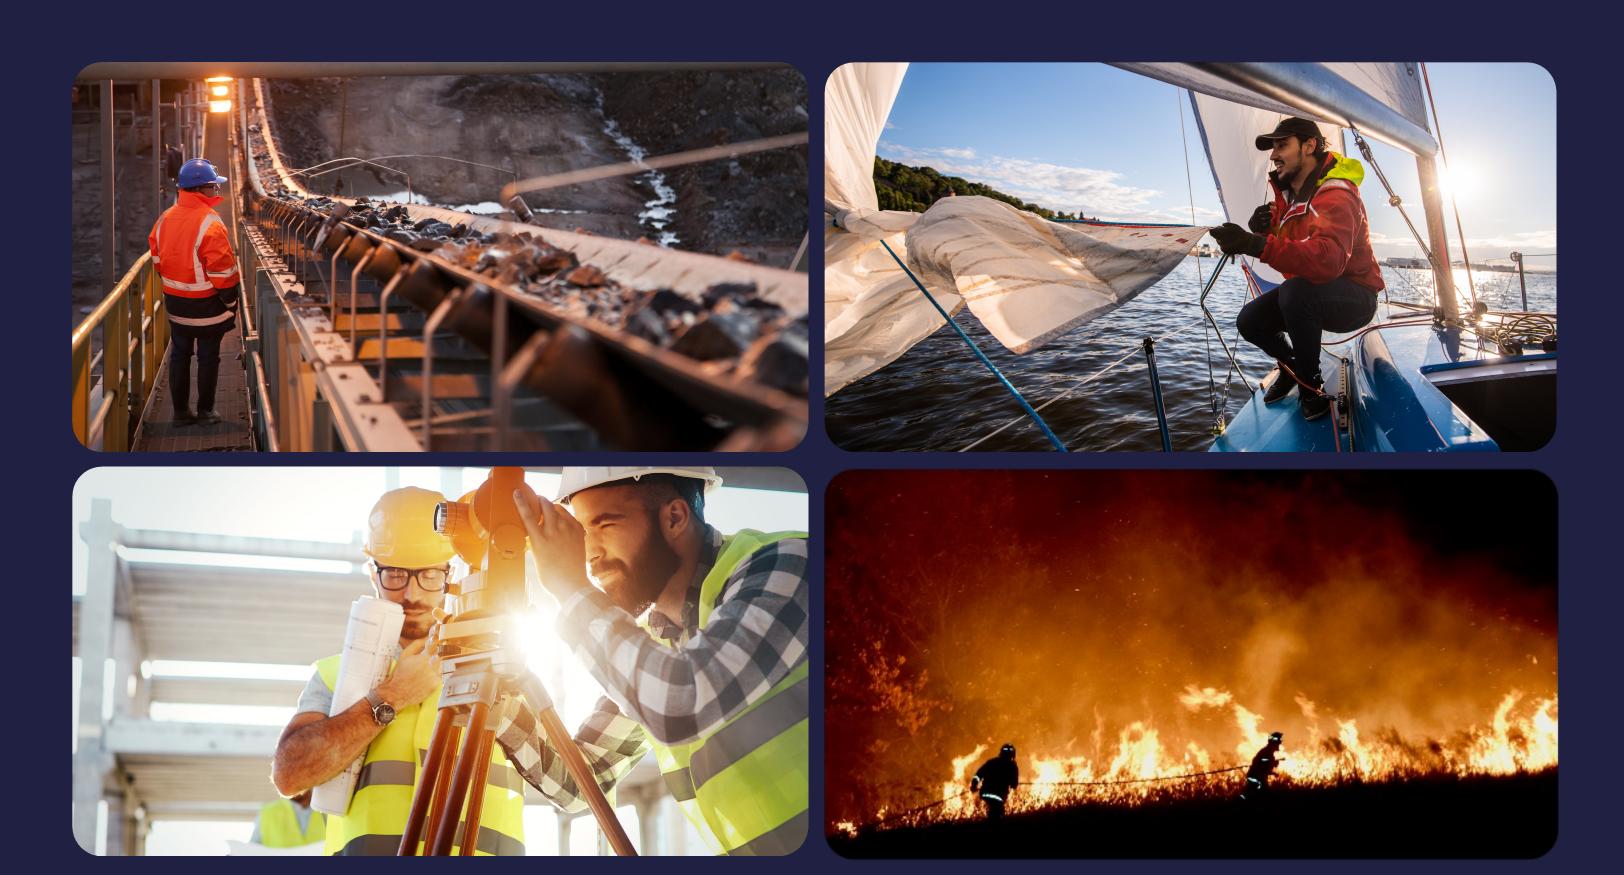

### **Pulsar Star Construction**

The simple geometry of the swoop can be interlocked or repurposed to create simple icons. Primarily the swoop can be used to show the 3 areas Pulsar servers: land, sea, and sky.
