

## Fleet Xpress for Superyachts

Stay connected on board your yacht with new levels of flexibility and guaranteed performance wherever you go

Fleet Xpress takes yachting communications to the next level, delivering high data speeds via Inmarsat's Global Xpress Ka-band service, combined with the proven reliability of Inmarsat's flagship FleetBroadband L-band service.

Guaranteed global bandwidth provides connectivity in all conditions and locations, making it easier to deliver a great guest experience and run an efficient yacht. Seasonal flexibility is assured via free and fast up- and downgrades of subscription plans: high bandwidth during peak demand and up to 6-months suspension to fulfil service standby in off-season periods.

With controlled costs and the freedom to take your yacht anywhere – Fleet Xpress is powering a yachting data revolution.

### Reliable Continuous Connectivity

Ultimate reliability through a dual satellite constellation using Ka-band with unlimited L-band back-up, ensuring seamless global mobility

### Guaranteed High Performance

Committed data rates backed-up by service level agreements ensure that the customer always gets what they pay for

### Predictable Controlled Costs

More accurate cost management with a wide selection of flexible subscription packages and one invoice

### Extreme Seasonal Flexibility

Flexible service plans to meet both seasonal and short-term bandwidth requirements, with the ability to suspend the service temporarily

### Fully Managed Service

Standardised plug-and-play service facilitates 24/7/365 management, monitoring and support globally, for simplicity and complete peace of mind

### Cyber Resilience

Increased preparedness to mitigate cyber threats at sea.
